

Week 5

3. Group Project (Overview)

Dr. Andreas S. Maniatis

Assistant Professor

School of Computer Science

COMP.2800 – Software Development [2026W]

Wednesday, February 4th, 2026 | 14:30 – 15:50 | ER 1118

University of Windsor

Agenda

- Class Project Overview
- Project Description
- Tools & Platforms
- Evaluation criteria
- Deliverables
- Schedule
- Grading

Part I

Class project overview

Class project overview

- Team based project (up to 4 members per team)
- Main goals:
 - An opportunity to apply the concepts learned so far in a creative and cohesive manner, which should help with understanding the material more deeply;
 - Experience designing and working on a project in a team, which is something that you will encounter in the workplace;
 - A way to create unique and tangible output that can be used to enhance their portfolio or resume
- Enhance your learning experience
- Grading based on demonstrable effort and adherence to outlined objectives

Class project description

Class project description

- A project description will be available. It will include:
 - Graphical User Interface (GUI) Design and Implementation
 - Use Swing (or another similar framework)
 - Interaction with a Relational Database Management System (RDBMS):
 - Store and retrieve data
- Each team:
 - Prepares a Project Proposal Document
 - Investigates the problem
 - Development:
 - Designs the Application / System
 - Implements the Application / System
 - Tests the Application / System
 - Submits the full code
 - Submits a final review / report
 - Submits a final recorded presentation

Part II

Libraries and Frameworks

Libraries and Frameworks

- GUI:
 - Java Swing
 - Java AWT
 - ... other ...
- Databases:
 - Hibernate
 - ... other ...
- Spring:
 - ... All in one ...
- ... other ...

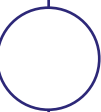

Part III

Project plan

● Project plan

Date	Task
Friday, February 13 th , 2026	Project Proposal Document
Monday, March 29 th , 2026	Final project report
Monday, March 29 th , 2026	Project Digital Presentation

Part IV

Project work plan

Project work plan

- Meet your team/group members, soon!
- Share roles:
 - Business
 - Technical
 - Financial
- Follow simple Project Management Principles (DAL, etc.)
- Even better, use some free tools (MS Project, Asana, **Hive**, ClickUp, ... It's optional)

Part V

Deliverables

Project submission

- Submitted electronically, on Brightspace
- One submission per group is required
- Every group member is expected to contribute equitably to the project
- Grades assigned to individual group members will be adjusted to reflect evaluations of their performance

Please note that incomplete submissions will not be graded. Also, in preparing your submission files you must abide by University of Windsor policies governing plagiarism and academic integrity. Submissions may be subjected to review by automated tools to verify their originality.

Project Deliverables

Deliverable	Details
1. Project proposal	This document should use 12-point Times New Roman font and be a maximum of three (3) 8.5" x 11" single-spaced pages with 1" margins. Note that this limit does not include appendices or references
2. Final Report	This document should use 12-point Times New Roman font and be a maximum of ten (10) 8.5" x 11" single-spaced pages with 1" margins. Note that this limit does not include appendices or references
3. Final review presentations	An MP4 or MOV file of no more than ten (10) minutes in length that encapsulates your digital presentation

Part VI

Grading

Course Assessment

Assessments	%
Assignments (4)	20
Labs (10)	10
Mid-term examination (project)	15
Group project	25
Final examination	30
Total	100

Project grading (I)

Deliverable	%
Project proposal report	5%
Java Framework Certification	15%
Solution Implementation	40%
Final report deliverable	25%
Final report video presentation	15%
Total	100%

Project grading (II)

- Project proposal:
 - Abstract
 - Problem description
 - Data sources
 - Selection criteria
 - Motivation for the problem
 - Solution Statement / Technology
 - Tool(s) to be used
 - Selection criteria
 - Bibliography / References

Project grading (III)

Solution:

- A clear, compelling description of the solution and its use is provided
- Sound justification is offered for the role and business value of the solution
- Substantive examination of considerations that are important to managers contemplating the deployment of the tool is provided. These considerations include:
 - Solution capabilities and performance
 - Hardware requirements and scalability
 - Capacity to integrate with other prominent tools / platforms
 - Extent to which the implemented solution satisfies/answers the problem
- A clear succinct demonstration is provided to illustrate how the solution can be applied in the realm of data analytics
- Relevant supporting data has been included (if appropriate)

Project grading (IV)

Reporting and presentation:

- Content is clear and logically structured
- Submitted materials are professional in character, being suitable for use by a business contemplating the use of the solution being reviewed
- Tables, figures, and other supplemental materials are included as appropriate
- Visual elements such as fonts, font sizes, color schemes, backgrounds, and pictures are aesthetically sound
- Course learning is applied to present important insights in a manner that is succinct and easy to understand
- Sound conclusions are drawn that are in accord with the analysis performed
- All requested materials have been submitted on time

Part VII

References

Java Frameworks

● Java Frameworks

○ Non-exhaustive reference list for Java Frameworks:

- Spring: ...
- Hibernate: ...
- Swing: ...
- ... many more ...

Thank you!
